## **BCA Mission Statement**

Our Mission Statement:

As a Christian Day School serving Hudson County, our main goal is to provide an economical and convenient solution to the care of your children and to establish a loving, caring, sanitary environment where your child will feel comfortable. Our curriculum will stress all stages of development in order for your child to grow physically, spiritually, and academically. We believe that children learn more than 'curriculum' when they are at school. They learn from the example of the adults who supervise them, from music that is played and from the other children, too. We want your child's earliest memories to be filled with the joy of belonging to a Christ-centered day school that satisfies your expectations as a parent and the creative needs of all children.
